Lucknow, Uttar Pradesh | 8173836599 | anujydv18@gmail.com | linkedin.com/in/anuj-yadav-538192253

CAREER OBJECTIVE

Data-driven professional with close to 3 years of experience using Excel for performance analysis, trend analysis, and KPI tracking within an international BPO environment, combined with self-directed project experience in SQL, Python, Tableau, and Power BI. Skilled in data cleaning, data visualization, dashboard development, database design, exploratory data analysis, and business intelligence reporting, with a strong foundation in statistical and analytical thinking, data integrity, and stakeholder communication. Seeking an entry-level Data Analyst role or internship to apply data analysis and data storytelling skills to real-world business problems.

PROJECTS

AI-Sales-Analyst | Python, SQL (MySQL), Power BI, Gemini API

- Built an end-to-end analytics pipeline on the Olist Brazilian e-commerce dataset (99,441 orders) – Python/pandas exploration, SQL analysis on an 8-table MySQL database, and a 3-page interactive Power BI dashboard (Sales Overview, Delivery Performance, Customer & Satisfaction)
- Designed DAX measures and synced slicers (order month, customer state) across dashboard pages, with visuals and titles aligned to underlying Python/SQL findings
- Developed an AI integration layer using Google's Gemini API: a natural-language-to-SQL tool that converts plain-English questions into live query results, plus an auto-generated insight-summary feature covering revenue, top categories, review scores, and delivery delays
- Implemented safety and error handling throughout – a SELECT-only guardrail blocking destructive SQL, row-output caps, and try/except coverage – and published the complete project on GitHub

Call Center Performance Analysis | Python (Pandas), Power BI

- Cleaned and analyzed 32,941 call records using Python/pandas, converting timestamps and handling ~62.7% missing CSAT scores without introducing fake data
- Built an interactive Power BI dashboard tracking average CSAT (5.55), average call duration (25.02 min), and daily call volume across a full month of operations
- Found Billing Questions drove the largest share of call volume, far outweighing Payments and Service Outage combined
- Identified that over half of all calls carried negative sentiment, while the Call-Center channel had the highest average CSAT among all contact channels

WORK EXPERIENCE

Subject Matter Expert (SME) – Niftel Communication (US Voice Process)

Nov 2023 – Jul 2026

- Tracked agent-level performance metrics and flagged process gaps to management for corrective action
- Used Excel to analyze individual and team performance trends, uncovering the business drivers behind performance shifts
- Supported agents with process knowledge, objection handling, and compliance guidance
- Generated and qualified leads for a US ACA health insurance sales process through outbound voice, guiding customers through available plans and helping them select and enroll in coverage matching their needs
- Assisted customers with scheduling doctor appointments and coordinating related care needs
- Handled customer support and service queries while consistently meeting data-driven daily and monthly targets

SKILLS

Analytics & Tools: Excel · Google Sheets · SQL · Python · Tableau · Power BI · Data Cleaning · Exploratory Data Analysis (EDA) · Data Visualization · Dashboard Design · Business Intelligence · Data Storytelling · KPI Tracking & Reporting · Reporting & Documentation · Stakeholder Reporting · Machine Learning · Generative AI

Analytical: Data Analytics · Statistics · Analytical Thinking · Logical Reasoning · Data Integrity · Data-Driven Decision Making · Attention to Detail

Professional: Team Leadership & People Management · Performance Monitoring · Stakeholder Collaboration · Written & Verbal Communication · Time Management · Problem-Solving

CERTIFICATIONS & JOB SIMULATIONS

- Data Analyst Certification (In Progress, Expected Oct 2026) – Excel, SQL, Tableau, Python, Power BI, Machine Learning, Generative AI
- Deloitte Australia – Data Analytics Job Simulation (Forage), Aug 2026 – Spreadsheets & Tableau
- Tata – Data Visualisation Job Simulation (Forage), Aug 2026 – Data Analysis & Data Visualization

EDUCATION

Bachelor of Commerce, Lucknow University
Intermediate & High School, CISCE Board

2024
2020 & 2018
